

GEM-FX5

The Perfect Versatile Engraving Machine

Innovation in the Engraving and Marking Industries

- ✓ The GEM-FX5 is a great professional engraving system.
- ✓ The GEM-FX-5 can cope with most industrial marking tasks, labels, switch sockets, tags, tools, identification plates. The GEM-FX5 can handle them all with speed and precision.
- ✓ With a generous engraving area of 265x205 mm (10.4"x8"), engraving speeds of up to 133 mm/sec (diamond drag), no task is too demanding.
- ✓ Type the text into the easy to use U-MARQ FX engraving software, insert the part, key or ID Tag into the machine, the GEM-FX5 then engraves the object in just a few seconds.

- ✓ Equipped with the state of the art U-MARQ revolutionary series 4 control system, the GEM-FX5 will connect to a standard PC or laptop using the USB interface.
- ✓ Its ease of use enables everyone to engraving gifts, jewellery, name plates etc., to a professional standard, after just a short introduction to the machine.
- ✓ The uncluttered design combined with the mechanical stability, enables easy engraving of large or small items. All this on the same system, which seconds later can be engraving lettering only a fraction of a centimeter high in delicate jewellery.
